Dear Mr Rutland,

This is further to our telephone conversation this afternoon for the VIN numbering system to be used on the BRENDERUP TRAILERS imported into the U.S.A..

Further to the telex #8685 of May 23 from our Export Manager at the plant in Denmark ,we offer the following additional information and one correction:-
the correction--the check digit for model type was incorrectly listed as "4" and should have been "3" (3 is the number we will use) on trailers bearing the identifying #s UH2194HB3FN180616

The additional information:

Numbering sequence	trailer overall length	number of axles
UH2194HB3FN180616	170 inches	2
UH2205UN5FN181940	216 inches	2
UH2245UW1FN181933	248 inches	2
UH2203TN0FN181930	223 inches	2
UH2203TW0FN181936	223 inches	2

We believe this information will complete the application process and allow you to release the figures as a matter of record.

We would like to take this opportunity of thanking you for your help and assistance in this matter. Your courtesy and straightforward manner are a credit to you and speaks well of the American Way to our partners in Europe.

Sincerely

Chris Barr
