Owner of Company: **Robert Teeple / President**

City of Incorporation: **Trailering Depot, LLC is a Limited Liability Corporation in the State of Ohio, USA and operates from Gibsonburg, Ohio, USA.**

Product Manufactured:

Trailering Depot, LLC sells a trailer dolly system built from steel, manufactured and assembled by local Companies. Minor assembly will be performed on site. Tow Buddy"The dolly system" connects to Fifth Wheel, Gooseneck, and Tag along trailers. It slides into the female portion of the vehicles hitch receiver and remains parallel to the tow vehicle rear axle. To help brace against lateral force linkages are pivotal mounted on the left and right side of the frontal portion and extend forward. The linkage is received by brackets on the left and right side of the vehicles hitch receiver cross tube then fastened by pins. Tow Buddy doesn't connect to a ball or pintle like other dollies. Tow Buddies travel up and down independent of the tow vehicle and dampen that motion to create weight distribution between the trailer and tow vehicle. Tow Buddies are fitted to receive an assortment of attachments such as lifting devices.

GVWR: The gross ratings (GVWR) of our products range from 3,500 lb. consumer unit to a 5,000 lb. commercial unit. And are rated to pull trailers from 2,000 lb up to 23,000 lb.
