Subject: Manufacturer Identification and VIN Decoding Information for Wacker Corporation

Dear Sir or Madam:

The purpose of this letter is to inform you of the intent on the part of our company to expand our current pump trailer manufacturing (using WMI 1W9...203) to include the manufacture of a trailer integral to diesel-powered lighttowers and a trailer for diesel-powered mobile generators for use in the construction, rental, and related industries. Because of the increased overall volume of manufacture, our company will begin to use the 5XF WMI, assigned by SAE, in place of the low-volume 1W9...203 designation. In addition to these new applications, our company will manufacture the climate control products registered by Ground Heaters, Inc., of Spring Lake, MI, under WMI 1G9...201, beginning January 1, 2008, after Ground Heaters, Inc. is integrated into our company. The specifics as required by your organization are as follows:

Name of Manufacturer: Wacker Corporation
Manufacturer Residence Address: N92 W15000 Anthony Ave.
Menomonee Falls, WI 53052
USA

State of Incorporation: Wisconsin

New Trailer Product Descriptions:
Lighttower trailer – gross vehicle weight rating between 2200 pounds and 3500 pounds.
Mobile generator trailer – gross vehicle weight rating up to 3500 pounds.

If further information is required, please contact:
Wacker Corporation
