Attention: VIN Coordinator

Reference: VIN Assignment Chart For Trailers

Dear Sir:

It is our understanding that we must submit to you our scheme for assigning Vehicle Identification Numbers at least sixty days prior to using them on vehicles that we manufacture.

Enclosed is a copy of our VIN Assignment Chart that will be used for all trailers manufactured by us. We expect that it meets your requirements. May we please be notified of your acceptance of our numbering scheme upon the completion of your review.

Thank you in advance for your consideration. If you have any questions or need any additional information, I can be reached directly at (814) 422-8892.

Yours truly,

John G. Harms, Jr.  
Accountant
