ATTN: VIN Coordinator

Dear Sir:

Further to my letter to you of February 12, 1982, and in compliance with Federal Motor Vehicle Safety Standard No. 115, "Vehicle Identification Number - Passenger Cars", please be advised that the Eagle Model 10SC will be identified by the first character of the second section of the VIN being a letter "C".

For your information, the Eagle Model 10SC is a derivative of the basic Eagle Model 10 bus, but specifically designed for suburban commuter service.

Sincerely,

Tom Haack
