ORIGINAL

Dear Sir:

We have recently begun complying with the 17 digit Vehicle Identification Number system. This is the information necessary to decipher our characters:

- First 3 digits: 1T9, assigned by WIN
- 4th digit, indicating type will be B for bumper pull, Or, G for Gooseneck
- 5th digit, indicating seris will be E for executive or S for stock
- 6th and 7th digits will indicate length of each trailer
- 8th digit will indicate number of axles of each trailer
- 9th digit: Check digit
- 10th digit: model year
- 11th digit: Plant location, which will be 1, Oilton, Oklahoma
- 12th, 13th & 14th: assigned by WIN are 084
- 15th, 16th and 17: Sequence No. beginning with 001

This is our first experience with the numbering system. Please let us know if we are to do anything else.

Sincerely yours,

TURNBOW TRAILERS, INC.

Dana Scott
