ATTN: VIN Coordinator

Dear Sir,

Kari-Kool Transports, Inc. resubmits their VIN format per S6, FMVSS115. Revision of the VIN format has been compiled per Debbie Bisch, SAE WMI Coordinator (412-776-4841).

This revision corrects an error in the previous format and allows Kari-Kool Transports, Inc. the latitude of constructing 500+ tank trailer units. Please see the attached sheet.

We will begin the use of the VIN system with the first unit manufactured, which was built July, 1984.

Sincerely,

KARI-KOOL TRANSPORTS, INC.

Earl L. Harrison
