Attention: VIN Coordinator

ORIGINAL

Dear Sir:

Per your requirements, we will begin using 17 digit VIN's on the trailers we manufacture after August 1, 1984. Enclosed is a catalog showing our Mang Trailer. Also enclosed is a copy of our assignment from the WMI.

The following description outlines the VIN we will use: 109TT8411F1015701 will be the first assigned. The 109 numbers were assigned; the TT84 indicate our Model Tilt trailer 8400; the eight digit is a 1 and indicates the number of axles on the trailer; the check digit (1) was determined using your formula; F is for our 1985 model year, which runs 8/1/84 thru 7/31/85; the eleventh digit (1) indicates our only plant; the 015 is again assigned; and the last 3 digits indicate our serial numbers which start at 701 each model year, and increase consecutively.

I believe this is the complete information you require.

Sincerely yours,

Jim Crook
President
