ATTN: VIN Coordinator

Dear Sir:

This letter is to serve as our application for a Vehicle Identification Number for "Trailer in a Trunk™" according to Motor Vehicle Safety Standard No. 115.

FIKE METAL PRODUCTS, A Division of Fike Corporation, manufactures this 22" x 42" x 8" trailer at 704 South 10th Street, Blue Springs, Missouri 64015, and will be responsible for affixing the VIN certification label properly (i.e. minimum height of 4mm and on a contrasting background). The trailer was produced in the year 1985 and FIKE plans to produce more than 500 (10,000) trailers each year. For the purpose of NHTSA, the trailer weighs much less than 1,000 pounds and will carry a 1,000 pound load.

Description: Trailer in a Trunk™ for transportation purposes
Weight: A (Not greater than 1,000 pounds)
Length: 42" x 44" (unfolded)
Axle Configuration: 3/4" steel with 1800 lb. leaf springs
Utility Trailer 6' overall length with stake rack and accessories. Steel tube tongue with Class 1 coupler. 480 x 8 load range B tubeless tires.

As we interrupt your bulletin of September 1, 1980, the Trailer in a Trunk™ VIN number should read:

UTF A FM000001
U(tility)T(railer)F(ike) A(Weight) F(ike)M(issouri)

Please let us know the correct VIN number or if you need any further information, and rush for our Feb. 1, 1986 ship date.

Sincerely,

FIKE METAL PRODUCTS
Division Fike Corporation

James E. Davis
National Sales Manager
Consumer Products
