

B 5/9/86 rdf

WIMYER INDUSTRIES INC.
RT # 3 BOX 199 FUQUAY VARINA, NC 27526

APRIL 29, 1986

Gentleman

This is the numbering system I have arrived at, from reading FEDERAL SAFETY STANDARDS MVSS 115.

1 W 9 I received from THE SAE .The U is for type (utility trailer).

The S is for series (standard). The 0 8 is for length (8 foot).

The 1 is for number of axles. Check Digit (1). The 6 is for 1986 . The

F is for the location of factory (Fuquay Varina, NC). The 0 8 0 was

-giving to me by (THE SAE).And the 001 is for the first trailer in 1986.

I hope this is according to procedure. Hence the number that I have come

up with is (1W9US0811GF080001). I am sure that if this is not right I

will be notified as to what to change. Thank you.
