Dear Mr. Edwards:

This is in response to the submission (enclosed) you sent to the Vehicle Identification Number Coordinator at the National Highway Traffic Safety Administration (NHTSA).

After reviewing your submission for the trailers you manufacture, we determined that we needed additional information before your submission can be entered into NHTSA's public docket. The World Manufacturer's Identifier (WMI) which you listed in positions 1, 2, and 3; you also repeated (incorrectly) in positions 12, 13, and 14. The WMI is assigned to the manufacturer by the Society of Automotive Engineers (SAE) located in Warrendale, PA. Earlier this year, we sent you an information packet (enclosed) regarding this subject. Coding for your plant location and an example of a check digit calculation is also needed. When this additional information is received, your submission will be completed and can be entered into our docket. At that time, it can be referenced by anyone needing information about the document.

Should you need additional information, please contact Mrs. Patti Gardner at (202) 366-5269.

Sincerely,

Stanley R. Scheiner, Chief
Crash Avoidance Division
Office of Vehicle Safety Standards
