Subject: Designation (Manufacturer Identification) EXLON

Ms. Greenfield,

My company (Exlon Extrusion, Inc.) manufactures plastic pneumatic tubing. We now have a customer that is requesting that a tube we manufacture for them meets the FMVSS 106 standard. This is a product that we have been manufacturing for them for the past year, however the compliance with the 106 Standard is new. The tube is used both under and in the seats for the lumbar support bags in automobiles. The tube has passes all of the tests for the FVFSS 106 Standard and has also been approved by our customer and their end customer. As per the Federal Motor Vehicle Safety Standards (FMVSS) 106 and Part 566, we are requesting to file the designation (EXLON) with the NHTSA. We would be printing on the tube as follows,

EXLON 200 PSI W.P. 1/4" O.D. A DOT (Current Date) (Time)
