RE: Bear Steel, Inc.

Dear Mr. Coleman:

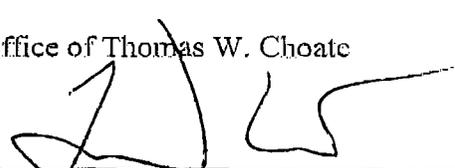

This letter is submitted as a follow-up to our telephone conference about the above referenced company on November 10, 2006. My client, Bear Steel, Inc., is a start-up company, incorporated in the State of Texas, which will make tank trailers to haul oil field fluids.

Attached is a preliminary draft of a VIN submission letter and identification submission. I am not, at this time requesting approval of this submission; but rather, I wanted to get a draft in your hands so that we might discuss same and make sure I am starting this correctly. Of course, personnel at Bear Steel, Inc., will be doing this in the future and on an ongoing basis, but we want to start the process correctly.

After you have had a chance to review the attached, I would like an opportunity to review same with you. If you will email me a time you could be available, I will try to call you; or if you are willing to do so, you can give me a call. Either way, I look forward to talking with you, and I appreciate your help.

Very truly yours,

Law Office of Thomas W. Choate
