49 CFR Part 566

Manufacturer Description

Robertson Truck Sales is a final/intermediate/altering stage manufacturer as well as an up-fitting facility that mounts van-bodies, dump bodies, flatbeds, grain bodies etc., as well as other related accessories on cab-chassis with GVRW's ranging from 10,000 lbs to more than 33,000lbs. Robertson Truck Sales performs any modification necessary to properly mount these types of bodies that include but are not limited to: frame alterations, driveshaft alterations as well as the addition of mounting other components such as P.T.O's, lift axles, lift gates, etc.

I would like to have written conformation from the NHTSA that Robertson Truck Sales has submitted the required manufactures identification and is now registered. I would like the written conformation sent to the attention of Ethan Robertson.
