Vince
Below is the explanation of our VIN numbers that you require. Please let me know if more information is needed for this requirement. We should have our GVW and GVAW sticker ready for you in the next couple of days and will priority mail it to you. Time is of the essence due to our situation in Florida and any help you could give us would be greatly appreciated.
Thanks
Steve

Subject: VIN Code

Steve,

Our World Manufacturer (Maker) Identifier (WMI) Code is 5DG for:

Terex Advance Mixer
7727 Freedom Way
PO Box 80070
Fort Wayne, IN 46898-0070
United States

It was assigned October 11, 2002 by Cathy Douds, WMI coordinator of SAE International acting as an agent for NHTSA.

Our Vehicle Identification Number System is as follows:

Section I Characters 1, 2 & 3 are 5DG World Manufacturer Code

Section II Character 4 is 8 for Class 8 Weight Rating
Character 5 is A for Brakes, Air, and Anti-Lock
Character 6 is C, U, or D for CAT, Cummins or Detroit Diesel Engine
Character 7 is number of axles and is 3-7 depending on number of axles
Character 8 is Series T for New Truck or G for Glider (Remanufactured) Truck

Section III Character 9 is Check Sum Digit with calculated value

Section IV Character 10 is the Model Year per Table VI, 49 CFR 565.6

Characters 11-17 are the Sequential Accumulative Production Numbers

Hope this helps you answer the mail!

Regards,
