Good Morning Mr. Coleman

Chalet RV manufacturers pop up camping trailers. We are adding two additional models to our product line this year and need to obtain vehicle identification numbers for the two new product series'.

Truck Camper
Travel Trailer

I am submitting an example of a Vehicle Identification Number (V.I.N.) that includes the new models, as well as the information necessary to decipher all the characters of the V.I.N. If you have any questions, please contact me.

An example is as follows:

POSITION	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
ACTUAL VIN	1	C	9	C	X	3	1	9	1	6	A	7	2	5	0	5	0

- Position 1-3: WMI assigned 1C9
- Position 4: TYPE OF TRAILER C = CAMPING (This is the only type of trailer we manufacture)
- Position 5: SERIES/BODY TYPE L = ALPINE R = ARROWHEAD S = ASPEN X = XL
Camper = TBD Trailer = TBD
- Position 6,7: LENGTH IN FEET 13 to 19
- Position 8: NUMBER OF AXLES 1
- Position 11: PLANT LOCATION A = ALBANY, OREGON

7/11/2006

- Position 12,13,14: MANUFACTURER IDENTIFIER = 725

With the addition of these two new models our combined production per year will likely exceed 500 units. If you have any questions or need more information please contact me.
