400 Seventy Street SW  
Washington, DC 20590

To Whom It May Concern:

We manufacture a 12 ft to 14 ft body for our customer who sends us his cab and chassis.

We install the body on the chassis and equip it with his machines, grinders, beadblaster, ultra sonic cleaner, cabinets and countertops.

The customer then finishes the installation with their equipment, hand tools and supplies.

This unit is then used by them to repair hospital tools and equipment on site at the hospital.

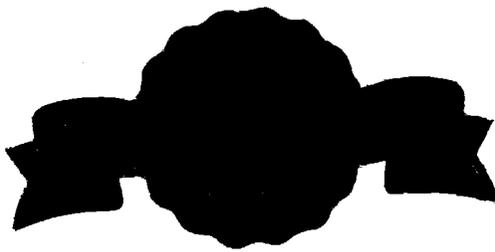

The GVW would never exceed the original manufacturer's GVW, and based on our calculations, would be below 12,000 lb GVW.

Sincerely,

D & D TRAILERS, INC.

G. Douglas Reside  
President
