Washington, DC 20590

To Whom It May Concern:

We have registered with NHTSA previously as a final stage manufacturer of tank truck bodies ranging in size from 18,500 through 58,000 GVWR. See attached copy of your letter dated May 6, 2004.

It is our desire to modify that registration or enter new registration as a final stage manufacturer that mounts van bodies, utility bodies and related accessories on chassis-cabs with GVWRs from 8,500 lbs. to more than 33,000 lbs. Additionally we want to register as a trailer manufacturer with GVWR's up to 80,000 lbs.

We request confirmation in writing from NHTSA that Tri State Tank, LLC D/B/A TST has submitted the information required by 49 CFR Part 566 and is registered as final stage motor vehicle manufacturer of tank truck bodies, van bodies and utility bodies and tank trailers.

Should you require additional information feel free to call me on our toll free number 800-255-0008 or e-mail me at [dsutton@tstllc.com](mailto:dsutton@tstllc.com).

Sincerely,

Donald W. Sutton  
President
