

Manufacturer Identification Submission

Name of Manufacturer: Metalite Aviation Lighting
Winster Grove, Great Barr
Birmingham, B44 9EJ
England

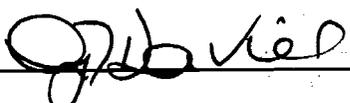

**Factory, Corporate
Headquarters
and Registered offices:** As above address

Owner of Company: Glyn T. Davies, Lynn Davies, S. Jackson
and 3i PLC

Products Manufactured: The Company manufactures a range of Portable Airfield Lighting equipment which can be optionally supplied with a small, bespoke, equipment trailer. The purpose of the trailer is to aid the transportation, deployment, recovery, recharging and storage of the lighting equipment. The trailers are normally used only at the Airport premises, but occasionally they may be required to travel on public highways.

The trailers are built using mainly steel fabrications and standard parts from local suppliers, with an additional few components from overseas sources. For any lighting systems supplied to US Airports, the approved trailer running gear, trailer lighting components and other standard trailer parts are purchased direct from US suppliers. All Metalite products are designed and assembled at the Company's factory in Birmingham, UK.

GVWR: All trailers manufactured by Metalite have a Gross Vehicle Weight Rating (GVWR) in the approximate range 1200 kg (2640 lb) to 1660 kg (3650 lb).
