Subject: Re: FMVSS 124 Testing on Tacoma.

Thanks sir. We probably should alert CQE.

Subject: FMVSS 124 Testing on Tacoma

Gentlemen,

I spoke with Harry Thompson today, and he gave me a heads up that he is writing a letter to Toyota to request information for an FMVSS 124 (accelerator control) compliance test they have been asked to conduct by ODI on the 2007 Tacoma. ODI has about 20 complaints on engine surge and they requested that OVSC conduct a compliance test. Harry wanted to let us know that the letter may be more detailed than past letters due to the nature and origin of the request from ODI. In particular, it will ask for certification data for different engine, transmission and 2WD/4WD combinations plus sales volume data for different combinations.

We should be receiving this letter sometime next week.

Best Regards.
